**Does not include the depth of a custom or optional door. If an ASKO optional door is used, add 2-1/2" in depth.*
ASKO retains the right to vary the model specifications at any time. All facts were accurate at time of printing. Before purchasing any appliance, read energy cost and efficiency information at your retailer.

D3120

The D3120 is a standard model that comes in white, black, bisque and stainless steel. Its easy-to-use control system offers one-touch access to its four programs. It remembers the last program used so you can just press Start to run it again. If you want to change the program, just push the Program button and advance it through the selections. This control system also has a light that shows the unit's progress through the cycles.

**D3350**

The D3350 is a standard model that comes in white, black, and stainless steel. Its unique control system offers one-touch access to its six programs. It also remembers the last program used. This control system also offers numerous options, and its innovative LCD panel shows the program name and time remaining.

**D3450**

The D3450 is a hidden-control unit that comes as a standard model in white, black and stainless steel. This unit has six wash programs and also remembers the last program used.

**D3250HD**

The D3250HD is a hidden-control unit with push-button access to its six programs. It also remembers the last program used. This model comes in white and black with a curved handle and in stainless steel with a straight handle.

**D3530HD**

The D3530HD is a hidden-control unit with push buttons and an LCD panel that shows the eight program names, time remaining, temperatures, and options. It also remembers the last program used. This model comes in stainless steel with a straight handle.

**D3250FI / D3250FIWS***

The D3250FI is a hidden-control unit with push-button access to its six programs. It also remembers the last program used. The FI model can be installed with an optional one-piece white, black, bisque or stainless steel door with a curved handle (as shown here). The FI model can also be installed with an owner-supplied, one-piece custom door.

*Available with water softener.

**D3530FI**

The D3530FI is a hidden-control unit with push buttons and an LCD panel that shows the eight program names, time remaining, temperatures, and options. It also remembers the last program used. The FI model can be installed with an optional one-piece white, black, bisque or stainless steel door with a curved handle (as shown here). The FI model can also be installed with an owner-supplied, one-piece custom door.

Every ASKO dishwasher is EnergyStar rated.

The D3000 series has already won an award in Germany's international iF Design Contest. To quote the judges, "One of the surprising new features is the three-dimensional graphic symbols which are logically designed and easy to understand."
